- C. 3DHP- elevation derived hydrography based on QL1 data from 3DEP
 - 1. Officially submitted grant- partnership with North Bay Hydrography Program (Marin, Sonoma, Napa, Yolo, Sacramento, Solano) cost \$600K- asking 35% from USGS, 400K from Solano and Sonoma to cover our watersheds. Marin completed 3DHP Pilot- will contribute their data in kind. USGS requirement to apply for grant by watershed not political boundary. Awards announced March 2025. Project estimated 18 months from contract start. Potential for subsurface waterflow (urban stormwater) if budget allows and data is available.
